We are working to strengthen our circular, ethical and innovative business model and to extend our sales network throughout the country. We want to ensure the accessibility of quality products to the greatest number of customers and enhance the potential of our partners within a framework of sustainable development.

Creating development opportunities is our vision, but above all our passion.

INTEGRITY

We always keep our promises and commitments. Our work is characterised by responsibility, ethics, fairness and inclusion. Our operations comply with applicable regulations and the highest standards of sustainability.

PASSION

we have a strong passion for our work. Thanks to the enthusiasm, curiosity and dedication of each of us, we are able to find the best solutions and create added value in all our operations.

INNOVATION

We develop a circular and highly innovative business model. Our Divisions are vertically integrated for efficient use of resources and to create shared value in an alternative and sustainable way.

OPPORTUNITIES

We see every challenge as an opportunity. Our ambition is always to offer our customers and partners the opportunity to access the goods, services and resources they need for their well-being and growth in a spirit of joint development.

The auditing company was appointed on the 19th of April 2021 and will remain in office until the date of approval of the financial statements as of the 31st of December 2023.

Consolidated Half-Year Financial Report as of the 30th of June 2022

FOREWORD

This Management Report on the Interim Consolidated Financial Statements of Portobello S.p.A. as of the 30th of June 2022 (the 'Report') has been prepared in accordance with Article 2428 of the Italian Civil Code, as well as in accordance with the Italian Accounting Principles formulated by the Consiglio Nazionale dei Dottori Commercialisti e degli Esperti Contabili and the Organismo Italiano di Contabilità (OIC). This report, drafted with values expressed in units of Euro, is presented to accompany the Interim Consolidated Financial Statements in order to provide the Company's income, equity, financial and management information accompanied, where possible, by historical elements and prospective evaluations.

THE PORTOBELLO GROUP

The Company was founded at the end of 2016 following many months of analysis by the founding partners regarding the evolution of the competitive scenario of the retail market, the needs and buying habits of modern consumers, and the opportunities related to the management of media space aimed at barter operations.

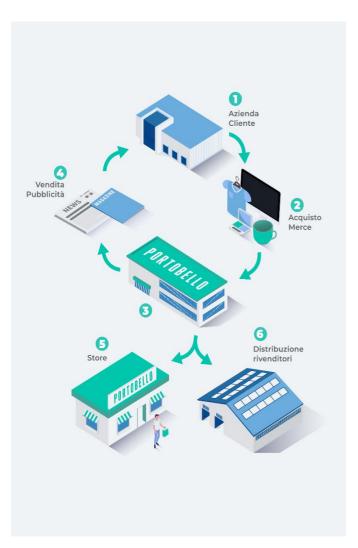

Portobello's business is structured in highly integrated Strategic Business Units ('SBUs') to achieve maximum margins. In addition to an efficient and fast administration of the structure, this integration allows robust scalability of the business model, very high customer growth rates and customer appreciation, and margins on par with the best competitors in the industry.

THE BUSINESS MODEL

Portobello has created a business model that is scientifically designed to capture product acquisition opportunities at highly competitive prices and provide, through an appealing and efficient format, the possibility for consumers to buy these products at lower prices than many other players in the market.

The business's circularity starts with media activity, mainly aimed at engaging potential customers in commercial barter advertising relationships or the direct sale of advertising. Portobello has advertising space at its disposal, either proprietary or under exclusive management (such as magazines, video walls, etc.) or owned by third parties (such as outdoor, digital totems, etc.). The Company obtains cash or other advertising space or physical products from the sale or barter business. The second step of the model is the resale of physical products acquired in exchange for goods or purchased directly from suppliers. These products are destined for the Company's B2C channels, such as the Portobello branded shops and marketplaces. Due to size or type, anything that cannot be sold in these channels is sold to other resellers in the B2B channel.

The business model, innovative and circular, provides for the sale of media spaces to customers-advertisers live or in barter: the products obtained are sold at competitive prices through the Portobello chain of stores, while the inventories are distributed to retailers.

The Company, to develop its Business, has set up the Strategic Business Units listed below:

- **Retail:** the retail formula includes shops with high product rotation and resale on major marketplaces.
- Media & Advertising: this area includes purchasing and reselling classic third-party advertising space in high-traffic areas, developing managed media and circulating entertainment magazines. The spaces are sold or used in barter activities in order to acquire products for resale through SBU Retail. In addition, in 2018, Portobello became a publisher by launching several magazines on the market ranging from gossip, cooking, and family to women's fashion and news. The activity is carried out by distributing the magazines nationwide, thus embracing the audience of the average Italian reader. The editorial contents, as well as printing and distribution, are outsourced, which allows for excellent management control in terms of costs and to make up for any problems with seasonal sales. The periodicals, in terms of content and user audience, are also perfectly in line with the potential advertisers of SBU Media, thus, acting as an accelerator for the latter, which handles the sale of advertising space.
- **B2B**: to ensure the best turnover of goods, part of the inventories are sold through B2B channels. This activity makes it possible to improve the marginality of products sold in other channels, improve the cash cycle, and enter agreements with international players.

Portobello's business model is circular, efficient, and scalable, thanks to the close correlation and vertical integration of the three SBUs. The benefits of such circularity are manifold:

- Optimisation of resources and asset utilisation. The Company, through its circular business model, is able to create a strong synergy between the different SBUs and make full use of all available resources that, taken individually, would certainly generate lower yields and greater risk. In addition, the integrated management model makes the Company's value proposition more attractive to corporate clients, as Portobello can guarantee an average wide offer and a very delimited channel for the disposal of inventories.
- Strategy and competitive positioning. Portobello has outlined a strategy through which it holds a position in the market with clear competitive advantages in its target sectors. The business model allows the Company to grow quickly in very challenging industries with significant pressure on prices and margins, achieving efficiency of scale and brand recognition among consumers. For example, in the media industry, faced with a stable or slightly declining market on some channels, Portobello is able to grow by acquiring high-margin advertising assets to a greater extent than other operators in the sector. These assets, thanks to the Company's strategy, can be valorised and generate significant economic benefits. For this reason, the circular and vertically integrated business model allows Portobello to set itself against the progressive decline of many competitors. This is also true in retail, where the management's expertise in this area has enabled the Company to create a format with great appeal to the consumer, structured in an efficient and scalable manner.
- Scalability (media, retail). The strategy and management model adopted has, as a direct consequence, a strong appeal to consumers seeking better value for money. This generates growth in sales, volumes, and points of sale and, at the same time, an increase in an already good marginality which, thanks to economies of scale, improves further. The intense pressure on prices caused by the emergence of the online sales channel has reduced the margins of many players and is putting out of business all those operators that do not achieve large-scale efficiencies. This could represent an opportunity for Portobello, which, having an alternative business model, will be able to grow, greater the price pressures and, consequently, the difficulties of its competitors.

RELEVANT EVENTS

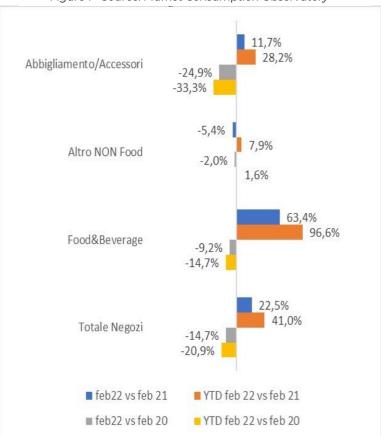

HEALTH EMERGENCY AND THE RUSSIAN-UKRAINIAN CONFLICT

Although in the first half of 2022, the Covid-19 health crisis in Italy and the rest of the world was contained, the second half of February 2022 witnessed a global geopolitical event of enormous magnitude. The Russian Federation militarily invaded the Ukrainian Republic, causing the dismay of all the world's chancelleries, especially the EU and NATO countries, which responded promptly by imposing strict economic and financial sanctions on the invader. Despite the continuation of the war on Ukrainian territory, it remains unlikely that the war will spread to the EU and, therefore, that Italy will become involved in the conflict. The new scenario, among other consequences, has led to a further exacerbation of the cost of energy throughout Europe, especially in the countries most dependent on Russian energy supplies, including Italy. In addition, rising inflation and rising prices of non-energy commodities, caused mainly by the conflict but also by an exceptional increase in post-covid demand, are putting a strain on the economies of the globalised world.

RETAIL

The year 2022 began with an exacerbation of many critical issues that had characterised the previous year. Not only is consumption still far from its pre-pandemic levels, with a few exceptions, and showing no signs of dynamism, but the situation has worsened further on the cost side regarding energy, transport, and raw materials due to the global geo-political situation. According to the Confimprese-EY Permanent Observatory, which monitors consumption trends in the catering, clothing, and non-food sectors, analysed data for February 2022 on the same month of 2020, not yet affected by the pandemic, and it shows a trend at -14.7% with a partial recovery compared to January (-25.1%) thanks to the better prospects for the exit of the pandemic, which allowed for a modest recovery. On a year-on-year basis, the trend reaches -15% vs 2020, but compared to two years ago, it still stands at -20%. The situation is still far from pre-pandemic levels and is complicated by rising food, utility, and fuel prices. As far as the product sectors are concerned, the most worrying trends are felt in clothing and accessories, which, with a drop of -24.9%, confirms itself as the sector suffering the most. Less negative trends were recorded in

catering, which closed the month of February at -9.2%, a clear improvement compared to January (-18.1%), and in non-food retail -2%, i.e., furnishing and culture-related products. Both confirm a stable realignment with pre-pandemic values.

Despite the complex scenario, the B2C (Retail) SBU recorded excellent results with revenues of EUR 9.77 million as of the 30th of June 2022.

During the first half of 2022, six new Portobello brand shops were opened:

- **C.C. Centroborgo Bologna**. Since 1989 a point of reference for the people of Bologna, the shopping centre has restaurant areas, a hypermarket, a dental surgery, a pharmacy, and many other services. The shop inside the 'Centroborgo' shopping centre has a floor space of 780 square metres and employs 14 specially recruited and trained people.
- **C.C. I Malatesta Rimini**. The shopping centre's elegant gallery houses 40 shops of the best brands, a hypermarket, a pharmacy, and a large food court with various gastronomic proposals. The shop inside the 'I Malatesta' shopping centre has a floor space of 1430 square metres and employs 14 specially recruited and trained staff.
- C.C. Adriatico 2 Portogruaro (VE). With more than 2,000 parking spaces, several cafés and restaurants, themed events, and a large number of top brand shops, the 'Adriatico 2' shopping centre represents a landmark for local shopping and entertainment. The shop within the 'I Malatesta' shopping centre has a floor space of approximately 1,500 square metres and employs 13 specially recruited and trained staff.
- **C.C. The Borgogioioso Carpi (MO)**. With spacious and modern architecture, a hypermarket, bars and restaurants, and themed events, the shopping centre offers various areas dedicated to shopping, dining and leisure. The shop inside the shopping centre has a floor space of around 1600 square metres and employs ten specially recruited and trained people.
- C.C. Città Fiera Torreano di Martignacco (UD). With 250 shops, 40 food outlets, two supermarkets, a cinema and many play areas for children, "Città Fiera" is the largest shopping centre in the Alpe Adria region, a bridge of communication with neighbouring Austria and Slovenia. The shop in the 'Città Fiera' shopping centre has a floor space of 920 square metres and employs 11 specially recruited and trained staff.
- C.C. Porto Grande San Benedetto del Tronto (AP). A reference point for the inhabitants of San Benedetto del Tronto and for tourists who flock to the neighbouring beaches along the Adriatic coast, 'Porto Grande' is a state-of-the-art shopping centre with 40 shops, a hypermarket, and many valuable services. The shop inside the 'Porto Grande' shopping centre has a floor space of 1,272 square metres and employs 14 specially recruited and trained people.

In addition, during the first half of 2022, the Group signed binding agreements for the leasing of properties with the aim of opening shops under the 'Portobello' brand on highly pedestrianised streets and in large shopping centres throughout Italy. Thanks to these agreements, which relate to a total cubage of the leased properties of approximately 10,800 sqm, Portobello will be able to open additional shops with characteristics (and profitability) comparable to approximately 43 stores built using the standard Portobello concept of 250 sqm.

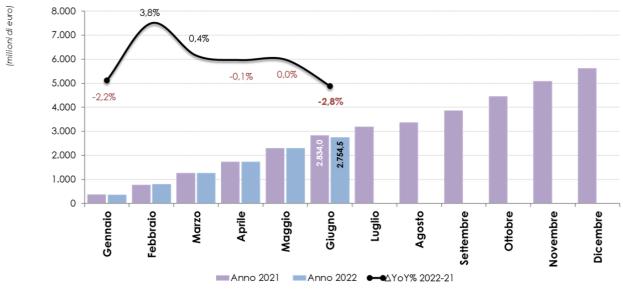

MEDIA AND PUBLISHING

Based on Nielsen data reported by Confindustria Radio Televisioni (CRTV), the advertising investment market in Italy recorded a total value of approximately EUR 2.75 billion in the first half of 2022, with a downward trend (-2.8%) compared to the values for the same period last year ("traditional perimeter"). In the single month of June, the figure stood at approximately EUR 452 million, a significant decrease of 14.8% compared to the values for the same month in 2021. In terms of the "extended perimeter" (including the Search, Social and Classified components of the Internet and the so-called Over The Top), the market value stands at around EUR 4.4 billion (+0.1% compared to 2021), with a difference from the "traditional perimeter" of around EUR 1.65 billion.

Perimetro tradizionale

Figure 2 - Source: Confindustria Radio Televisioni (CRTV) elaborations on Nielsen data

Note: The 'traditional' perimeter monitored by Nielsen does not include the Search, Social and Classified components of the Internet and the so-called Over The Top

It should be noted that the first half of 2022 vs the first half of 2021 ended in substantial parity, with a decrease in June due to the comparison with the same month in 2021 in which the European Football Championship took place. Comparing the value reached by the market in this first half of the year with the average of the years without events, total investments are in line with the long-term trend. The slowdown in June could be linked to the lack of relevant entertainment events and the Ukrainian crisis, which has started to materialise on companies' finances. The automotive and food sectors were particularly hard hit, while tourism, clothing and leisure recovered. In any case, the industry could recover in the autumn, also thanks to the 2022 World Cup, which will certainly be a good communication opportunity for brands and the entire market, as has already happened in the recent past.

Regarding Portobello's SBU Media, it should be noted that at the beginning of February this year, Sae Sardegna S.r.l. - a subsidiary of Sae-Sapere Aude Editori S.p.A. Group (Sae Group), in which Portobello holds a stake of approximately 18% of the share capital - acquired the daily newspaper La Nuova Sardegna. The deal follows the Sae Group's acquisition in December 2020 of the daily newspapers Il Tirreno, La Nuova Ferrara, Gazzetta di Modena and Gazzetta di Reggio. Thanks to the acquisition of La Nuova Sardegna, Portobello has expanded its local advertising offer and consequently strengthened SBU Media, through which it can implement advertising bartering operations through specific commercial agreements.

Portobello's SBU Media reported excellent results with revenues of EUR 24.57 million as of the 30th of June 2022.

B₂B

Finally, the revenues of Portobello's B2B SBU as of the 30th of June 2022 amounted to EUR 14.48 million, up 68.4% compared to the first half of 2021. The Company considers this activity helpful in monetising those products that are not in line with the Portobello shops or related to purchases that have too high a volume compared to the shops currently open and, therefore, not a priority channel in its development strategies.

FINANCING

At the end of January 2022, the Company signed a financing agreement for €5 million with Deutsche Bank. The purpose of the transaction is to support the Company's multi-year investment plan, having at the same time entered into binding agreements with leading commercial partners active in the retail sector. This is for the opening of new stores throughout Italy, under which the commercial network is expected to increase further by approximately 5,000 square metres, comparable in terms of characteristics and profitability to approximately 20 stores built using the standard Portobello concept of 250 square metres. The shops will be opened in high-traffic shopping centres throughout the country in order to reach a significantly larger number of customers. The loan, variable-rate and unsecured, amounts to €5 million, has a term of five years, expires on 3 February 2027, and has a quarterly repayment schedule in arrears after an initial pre-amortisation period of six months. The financing agreement contains provisions that are customary for contracts of this kind, including (i) assumptions of mandatory early repayment, inter alia, in the event of non-compliance with financial covenants typical of such transactions (Net Financial Debt/Equity and Net Financial Debt/EBITDA, both calculated on an annual basis) (ii) the possibility of voluntary early repayment of the financed amounts, subject to the payment of a penalty; (iii) additional provisions relating to mandatory early repayment events, declarations, covenants (including financial) and obligations not to do anything, events of revocation, consents and materiality thresholds in line with the practice for transactions of this kind. Considering the Company's shareholding structure, a "change of top management" clause is also provided for if Pietro Peligra, Roberto Panfili and Simone Prete cease to hold, directly or indirectly, a cumulative shareholding between them of at least 30% of the Company's shares.

In March, the Company signed an additional financing agreement for €5 million with a leading Italian bank. The purpose of the transaction is to support Portobello's multi-year investment plan, having at the same time entered into binding agreements with leading commercial partners active in the retail sector for the opening of new stores throughout Italy. These are under the terms of which the commercial network is expected to increase further by approximately 5,800 metres squared comparable in terms of characteristics and profitability to approximately 23 stores built using Portobello's standard 250 metres squared concept.

The loan, variable-rate and unsecured, amounts to €5 million, has a term of five years and expires on the 30th of June 2027, and a repayment schedule in arrears on a half-yearly basis, after an initial preamortisation period of six months. The loan agreement contains provisions that are customary for contracts of this kind, including (i) assumptions of mandatory early repayment, inter alia, in the event of non-compliance with financial covenants typical of such transactions (Net Financial Debt/Equity and Net Financial Debt/EBITDA, both calculated on an annual basis) (ii) the possibility of voluntary early repayment of the financed sums, subject to payment of a penalty; (iii) additional provisions relating to mandatory early repayment events, declarations, covenants (including financial) and covenants not to do, events of revocation, consents and materiality thresholds in line with the practice for transactions of this kind. Within the opportunities created for the Company, this transaction will further strengthen its physical presence and business in the country.

SPONSORSHIPS

Since it was founded, Portobello has been supporting and enhancing sport, representing an important tool for socialising, and promoting fundamental values such as team spirit, respect, loyalty, and inclusion. The Company signed three top-level sports sponsorship agreements in 2021 that are valid through to the first half of 2022. The sponsorships fall within the communication and marketing strategy framework, aimed at representing the Company's Italian identity and its roots in the territory, thus supporting both local populations and activities, as well as national excellence. This strategy, together with the numerous openings of sales outlets and a massive media campaign through high-profile 'influencers' and 'brand ambassadors', has helped to strengthen brand awareness throughout the country. The three sponsorships were signed with:

- **Frosinone Calcio**. Portobello is the Official Sponsor for the 2021-22 season. Through the Portobello logo on the front of the match shirt, the club further strengthens its brand awareness, especially in the Lazio region, where it is based.
- Italian Rugby Federation (F.I.R.). Portobello is the Official Top Sponsor for the 2021-22 season. The agreement with the F.I.R. allows Portobello to benefit from excellent visibility at a national level through various initiatives at all home matches of the "Guinness Six Nations Championship" and "Autumn International Series" tournaments.
- Fabio Di Giannantonio (MotoGP rider in 2022). Portobello is the sponsor of Italian motorcycling talent Fabio Di Giannantonio for the 2022 season. Thanks to the agreement signed in October 2021, the Company will benefit from international visibility by affixing the logo on the right and left sleeves of the suit used by the rider during all free and official practice sessions and races.

ENVIRONMENTAL SUSTAINABILITY AND SOCIAL RESPONSIBILITY

In the complex social, environmental, and economic context that characterised the first half of 2022, partly due to the consequences of the pandemic and the geopolitical crisis, the Company deemed it appropriate to expand the scope of its social responsibility and environmental sustainability operations.

Ukrainian emergency: donation of one thousand items of clothing

In March, the Company donated 1,000 items of clothing to the Spanish National Church in Rome in order to actively contribute to the Ukrainian emergency. This donation is part of the solidarity project that the aforementioned institution has promoted, together with the Spanish Cervantes High School in Rome, and is aimed at collecting necessities for the Ukrainian people.

Forever Zero CO2 project: zero-impact shops

In May, the Company launched the environmental sustainability project 'Forever Zero CO2', the carbon offset programme of Forever Bambù, a leading company in the planting of giant bamboo with biodynamic and symbiotic agriculture for industrial, food and energy purposes. Thanks to this ambitious project, Portobello has reduced to zero the polluting emissions produced by all the shops open until December 2021, through the absorption of about 600 tonnes of CO2 per year, for a total of 12,000 tonnes by 2042, with the planting of 23,000 square metres of bamboo forest at Civitella Paganico in Tuscany. The carbon neutrality of Portobello, which is the result of an accurate scientific study by Forever Bambù's technicians, stems from the Company's desire to implement carbon offsetting in parallel with the increase in the number of points of sale in the country envisaged by the Industrial Plan. The bamboo groves, thanks to Forever Bambù's exclusive cultivation, management and pruning method, can absorb up to 265 tonnes of Co2 per year, 36 times more than a mixed forest under the same conditions.

MANAGEMENT EVOLUTION

While the number of Covid-19 infections remains high, hospitalisations and deaths are now falling steadily, although there are still concerns about new variants of the virus developing as we head into autumn. In addition, the Russian-Ukrainian conflict is exacerbating some of the critical issues caused by the pandemic and leading to a dramatic increase in the price of energy and raw materials and, consequently, inflation, which is impacting prices and, thus, consumption. In addition, due to the government crisis last July that led to the resignation of Prime Minister Mario Draghi, the downturn in Italian financial markets intensified.

In any case, according to ISTAT data, Italy's GDP in the second quarter of 2022, adjusted for calendar effects and seasonally adjusted, increased by 1.1% compared to the previous quarter and by 4.7% compared to the second quarter of 2021, data that show a better trend than in the United States, whose GDP decreased in cyclical terms by 0.1%, while it increased by only 0.5% in France and remained stationary in Germany.

Although some cost-containment measures are under consideration by Italian and European institutions, the energy crisis could last for months, aggravating the overall situation. However, Portobello's production, which by its nature is non-energy intensive, should not be particularly affected by these cost increases. Moreover, in critical periods such as the current one, characterised by uncertainty, inflation, and a decrease in purchasing power, consumers become more cautious and sensitive to the price of products. Therefore, the Company's value proposition, based on an offer that succeeds in sustainably combining the best quality-price ratio on the market with an excellent purchasing experience, becomes more successful, as has already been proven in the pandemic period.

Moreover, with the recent acquisition of the e-commerce platform Eprice, through its subsidiary PB Online, the Company is preparing to:

- Become an omnichannel operator, creating strong synergies between online (e-commerce) and offline (retail chain) aimed at increasing brand awareness, customer loyalty and optimising contact points with the public
- Expand the product range on the eprice.co.uk portal with some categories of the Portobello retail chain to strengthen the online offer, marginality, and competitiveness of the e-commerce portal
- Rapidly develop economies of scale both on costs related to logistics, shipping, communication, and marketing and on margins by being able to obtain more favourable terms from suppliers
- Developing a competitive B2B offer for SMEs, which make up most of the Italian industrial fabric, also thanks to the mechanism of an advertising merchandise exchange

In addition to this, thanks to the loyalty programme being launched through the proprietary Fidelity App, which can be downloaded on the main marketplaces (Android and iOS) and is integrated with the POS management software and Salesforce CRM, the Company expects to achieve several benefits in the medium term:

- Growth in turnover: a loyal customer base will more easily identify with the values of the Company and will consequently tend to increase both repeat purchases and the average shopping basket. By increasing brand loyalty, the amount of the average receipt will also increase, and so will the Customer Lifetime Value
- Increased word-of-mouth: a satisfied customer will feel the need to recommend the benefits of the Portobello loyalty programme to friends and family, becoming, in effect, a brand advocate of the Company
- Increased profitability in the long term: purchases by loyal customers will not be concentrated in the period of offers or promotions but will be frequent and distributed throughout the year. In the medium to long term, this will significantly increase the Company's profitability and provide a competitive advantage over competitors in the sector

Portobello S.p.A. - Interim Consolidated Financial Statements as of the 30th of June 2022

From a careful analysis of the current situation and the medium to long-term outlook, it is reasonable to assume that the Company will continue to constitute a sustainable economic complex intended to produce income over several years.

Confirming this, Portobello is continuing the development of its shop chain, which by June 2022 has reached a total area of around 20,500 square metres, to which will be added the new openings already contracted, which will bring the Company during the current year to approximately 30,000 square metres (equivalent to around 120 shops of the standard Portobello format of 250 square metres).

ECONOMIC/FINANCIAL PERFORMANCE

ECONOMIC MANAGEMENT DATA

Below are the Group's key operating figures for the six months that ended on the 30th of June 2022, prepared in accordance with national accounting standards. Since this is the first consolidated half-yearly report, there are no figures for comparison with the economic situation as of the 30th of June 2021:

| Consolidated profit and loss account (figures in Euro) | 30/06/2022 |
|--|--------------|
| Revenues from sales and services | 48,820,315 |
| Other revenues and income | 185,703 |
| Value of production | 49,006,018 |
| Inventories of raw materials, consumables, and goods | 40,616,318 |
| Change in inventories of raw materials, consumables, and goods | (10,681,756) |
| Cost of sales | 29,934,562 |
| Gross Margin | 19,071,456 |
| % | 38,9% |
| Staff | 5,042,784 |
| Use of third-party assets | 3,287,977 |
| Services | 3,680,289 |
| Sundry operating expenses | 630,207 |
| EBITDA ² | 6,430,199 |
| % | 13.1% |
| Amortisation, Depreciation, Provisions and Write-downs | 1,757,169 |
| EBIT ³ | 4,673,030 |
| % | 9.5% |
| Other financial income | 12 |
| Interest and other financial charges | (265,720) |
| Value Adjustments on Financial Assets | (100,000) |
| Financial Management | (365,708) |
| EBT | 4,307,322 |
| Income taxes for the year, current, deferred and prepaid | 1,559,969 |
| PROFIT (LOSS) FOR THE PERIOD | 2,747,353 |
| • • | |

² EBITDA indicates the result before financial and extraordinary management, taxes, depreciation and amortisation of fixed assets, provisions, and impairment of receivables. EBITDA, thus defined, is the indicator used by the directors of Portobello S.p.A. to monitor and evaluate the operating performance of the company. Since EBITDA is not identified as an accounting measure within the scope of the accounting standards, it must not be considered as an alternative measure for evaluating the operating performance of Portobello S.p.A. Since the composition of EBITDA is not regulated by the relevant accounting standards, the determination criterion applied by Portobello S.p.A. may not be homogeneous with that adopted by other entities and/or groups and may therefore not be comparable. As of 30/06/2022, EBITDA amounted to Euro 6,430,199, or 13.1% of the value of production.

³ EBIT indicates the result before financial expenses and taxes for the year. EBIT, therefore, represents the operating result before the remuneration of both debt and equity capital. EBIT, thus defined, represents the indicator used by the company's directors to monitor and evaluate the company's operating performance. Since EBIT is not identified as an accounting measure within the scope of national accounting standards and its composition is not regulated by the reference accounting standards, the calculation criteria applied by the Company may not be homogeneous with that adopted by other entities and, therefore, may not be comparable with them. As of 30/06/2022, the same was equal to Euro 4,673,030 with an incidence of 9.5% on the value of production.

The value of production as of 30/06/2022 amounted to Euro 49,006,018. The table below shows the value of production broken down by business area:

| Activity Category | 30/06/2022 |
|---------------------|------------|
| Media | 24,568,549 |
| Retail (or B2C) | 9,771,174 |
| B2B | 14,480,592 |
| Other revenues | 185,703 |
| Value of production | 49,006,018 |

| | 30/06/2022 |
|---------------------|------------|
| Value of production | 49,006,018 |
| EBITDA | 6,430,199 |
| EBT | 4,307,322 |

The Consolidated Net Profit for the year that ended on the 30th of June 2022 amounted to €2,747,353 and was composed as follows:

- Group share of profit Euro 3,918,023
- Minority interests Euro (1,170,670)

Detail of costs incurred

Below is a table detailing the costs incurred by the Group as of the 30th of June 2022:

| VOICE | 30/06/2022 |
|--|--------------|
| Costs for raw materials, consumables, and goods | 40,616,318 |
| Costs for services | 3,680,289 |
| Lease and rental costs | 3,287,977 |
| Personnel costs | 5,042,784 |
| - wages and salaries | 3,720,056 |
| - social security charges | 1,092,673 |
| - provision for severance pay | 229,681 |
| - other personnel costs | 374 |
| Changes in inventories of raw, ancillary, and consumable materials and goods | (10,681,756) |
| Other Provisions | 460,000 |
| Sundry operating expenses | 630,207 |
| Production costs | 43,035,819 |

Balance Sheet - Financial Situation

The statement of financial position of Portobello S.p.A. as of the 30th of June 2022 and the comparison with the corresponding figures as of the 31st of December 2021 are shown below:

| Company Balance Sheet (figures in euro) | 30/06/2022 | 31/12/2021 | Variaz. Absolute | Change % |
|---|---|--|--|--|
| Intangible Fixed Assets | 6,183,661 | 5,346,804 | 836,857 | 15.65% |
| Tangible Fixed Assets | 2,721,729 | 1,995,790 | 725,939 | 36.37% |
| Financial Fixed Assets | 1,680,012 | 1,065,870 | 614,142 | 57.62% |
| NET FIXED ASSETS | 10,585,402 | 8,408,464 | 2,176,938 | 25,89% |

Net fixed assets as of 30/06/2022 amounted to Euro 10,585,402, an increase of Euro 2.18 ml compared to the figure as of 31/12/2021. Finished goods inventories as of the consolidated Financial Report date amounted to Euro 53,718,397 (gross of the related write-down provision of Euro 1,500,000) broken down as follows:

- Euro 16,454,879 of goods purchased in cash ('Inventories from direct purchases')
- Euro 37,263,518 of goods acquired in barter ('Inventories from barter purchases')

With reference to the item "Advertising", it should be noted that the barter activity takes the form of an exchange between goods and services of customers with advertising services offered by the Company, the consumption of which is diluted over time (generally, the advertising services offered by Portobello in exchange for goods or other services must be consumed within the current financial year or, at the latest, within the financial year following the year in which the relevant contract was signed). As a result of the above, the development of this item, which in the financial statements is included among prepayments and accrued expenses, provides information on the development of the business, and can be equated with an "Order Backlog" in both purchase (advertising to be consumed) and sale (advertising to be provided) and is linked to the timing of consumption of the related advertising services. Therefore, the increase in this item does not take the form of cash absorption since the invoicing of exchange contracts provides for the offsetting of items and therefore does not lead to cash outflows. Lastly, it should be noted that the item 'advertising to be consumed' is entirely attributable to media acquired through barter contracts, therefore, this component will not generate any cash outflow. In fact, media acquired in cash generally does not generate prepaid expenses because the purchase of advertising from third parties occurs concurrently with the end customer's consumption and, therefore, no time lag is generated. Finally, it should be noted that the weight of advertising acquired in cash is around 2% of the total acquisition cost of the media and is recognised in the income statement.

Group shareholders' equity was Euro 39,352,670, with minority interests amounting to EUR (1,157,240).

The net financial position of Portobello S.p.A. as of the 30th of June 2022 is shown below:

| NFP Detail (Figures in Euro) | 30/06/2022 | 31/12/2021 | Absolute Variation | Change % |
|--|-------------|-------------|--------------------|-------------|
| Cash | 84,758 | 88,218 | 6,529 | 19.70% |
| Other cash and cash equivalents | 809,013 | 2,382,957 | (534,094) | (-20.5%) |
| LIQUIDITY (a)+(b)+(c) | 893,771 | 2,471,175 | (527,565) | (-20.0%) |
| Current financial receivables | (1,907,475) | (1,460,876) | (467,180) | 47.00% |
| Current bank payables | (5,392,441) | (4,169,114) | (1,415,517) | 51.40% |
| Other current financial payables | (612,308) | (595,151) | (32,744) | 5.80% |
| CURRENT FINANCIAL INDEBTEDNESS (f)+(g)+(h) | (7,912,224) | (6,225,141) | (1,915,441) | 44.40% |
| CURRENT NET FINANCIAL INDEBTEDNESS (i)-(e)-(d) | (7,018,453) | (3,753,966) | (2,443,006) | 146.10% |

The net current financial position is negative by about EUR 8 million. Current bank and financial payables refer to short-/medium-term loan agreements.

The following table shows the net financial position of Portobello S.p.A. restated in accordance with CONSOB Resolution 15519 on the 27^{th} of July 2006:

Portobello S.p.A. - Interim Consolidated Financial Statements as of the 30th of June 2022

MAIN PROFITABILITY RATIOS

For a better understanding of the Company's economic situation and results, we provide some comparative economic indicators for the two reporting periods, which, although not identified with directly accounting measures, provide a clear view of the Company's business performance.

The indicators listed below should be used as a supplement to the information provided by the CIU.

Return on Assets

| R.O.A. | 30/06/2022 |
|--------------------------------------|-------------|
| Net Operating Income | 4,673,030 |
| Total Assets | 105,288,832 |
| Net Operating Income/Total Assets | 4.44% |

The index measures the return on investment with reference to the result before financial management.

Return on Equity

| R.O.E. | 30/06/2022 |
|------------------------------------|------------|
| Net Profit | 3,918,023 |
| Shareholders' Equity | 38,195,430 |
| Net Profit/Shareholders' Equity | 10,26% |

The index measures the return on equity invested in the Company.

Return on Investment

| R.O.I. | 30/06/2022 |
|---|------------|
| Net Operating Income | 4,673,030 |
| Net Invested Operating Capital (*) | 66,456,877 |
| Net Operating Income/Net Invested Operating Capital | 7.03% |

^(*) Net Invested Operating Capital is the sum of Net Fixed Assets and Net Working Capital

The index measures the profitability and efficiency of invested capital in relation to typical business operations.

Return on Sales

| R.O.S. | 30/06/2022 |
|---|------------|
| Net Operating Income | 4,673,030 |
| Revenues from Sales and Services | 48,820,315 |
| Net Operating Income/Sales and Service Revenues | 9.57% |

The index measures the Company's ability to generate profits from sales.

Portobello S.p.A. - Interim Consolidated Financial Statements as of the 30th of June 2022

Ebit

| Ebit | 30/06/2022 |
|-------|------------|
| EBIT | 4,673,030 |
| Value | 4,673,030 |

This is the income margin that measures the result for the year without considering extraordinary items and financial expenses. It includes the result of the ancillary and financial area, net of financial expenses.

Primary Structure Margin

| | 30/06/2022 | 31/12/2021 | Variation |
|--|------------|------------|-----------|
| Equity | 38,195,430 | 35,035,959 | 3,159,471 |
| Fixed Assests | 10,585,402 | 8,408,464 | 2,176,938 |
| Primary Structure Margin = Equity - Fixed Assets | 27,610,028 | 26,627,495 | 982,533 |
| Primary Structure Ratio = Equity/Fixed Assets | 3.61 | 4.17 | -0.56 |

It expresses in absolute terms the Company's ability to cover investments in fixed assets with its own funds.

Secondary structure margin

| | 30/06/2022 | 31/12/2021 | Variation |
|--|------------|------------|-----------|
| Equity | 38,195,430 | 35,035,959 | 3,159,471 |
| Consolidated liabilities | 21,931,601 | 14,659,708 | 7,271,893 |
| Fixed Assets | 10,585,402 | 8,408,464 | 2,176,938 |
| Secondary Structure Margin = (Equity + Consolidated Liabilities) - Fixed Assets | 49,541,629 | 41,287,203 | 8,254,426 |
| Secondary Structure Ratio = (Equity + Consolidated Liabilities) / Fixed Assets | 5.68 | 5.91 | -0.23 |

It expresses in absolute terms the Company's ability to cover its investments in fixed assets with consolidated sources.

SIGNIFICANT EVENTS OCCURRING AFTER THE END OF THE PERIOD

E-COMMERCE PLATFORM ACQUISITION EPRICE

In July, the Company finalised the acquisition of the so-called 'marketplace' owned by ePrice Operations S.r.l. Founded in Milan in 2000, ePrice is one of Italy's leading online shops, specialising in the sale of high-tech products (electronics) and a leader in the large household appliances segment. In 2020, the "marketplace" business unit recorded sales of approximately \in 101.4 million and EBITDA of \in -14.1 million. Furthermore, in 2020, the portal received almost 65 million visits with 500,000 customers who produced 637,000 orders with an average receipt of \in 287.

The business unit comprises the eprice.co.uk portal, consisting of the following elements:

- Goodwill, understood as the intangible value of the business, reflecting market position, brand awareness, supplier and customer network and business reputation
- The equipment and hardware necessary and required to ensure business continuity
- All intangible assets inherent in the business unit, including the database of (i) personal data of the Company's customers, (ii) the personal data and master data of the marketplace sellers, and (iii) that of the users (i.e., visitors) of the web pages disseminated by the Company
- Contracts and all authorisations necessary and required for the conduct of the business branch's activities
- A 25% shareholding in the Dutch-registered Company International Marketing Network b.v., a JV founded with three other operators to create an international marketplace between Italy, France, Germany, and Romania
- Labour relations with 25 employees at the business unit are necessary and required to ensure business continuity

The business unit was acquired through PB Online S.r.l., a company established in May 2022. The price for the sale and purchase of the business unit is approximately \in 6 million, paid in full to the selling party in cash on the closing date and in part by taking over the debt of approximately \in 900,000 inherent to the 25 employees being transferred within the unit. The purchase transaction is supported 50% by Portobello through a loan granted by Deutsche Bank and 50% by Riba Mundo Tecnologia S.L.

FIDELITY PROJECT

To increase the process of customer loyalty and improve the customer shopping experience with a view to digital transformation, the Company developed a loyalty project through its proprietary Fidelity App, in the launch phase, which can be downloaded from the main marketplaces (Android and iOS) and is integrated with its POS management software and Salesforce CRM.

The project aims to streamline customer loyalty processes through Marketing Automation mechanisms. Using a CRM integrated together with the mobile customer App and POS management software at the points of sale will enable the Company to obtain all the necessary information on the behaviour of its loyal customers. The master data, the use of points and discount vouchers from the Mobile App cross-referenced with purchase details from the POS software, will allow the CRM to create reports and monitoring dashboards that will optimise and enhance sales and marketing operations through:

- Customer data collection: the Company will acquire data on customers, useful for understanding their purchasing behaviour, habits, and preferences, based on which it will be possible to orient sales strategy.
- Detachment of competitors: the loyal customer will be more inclined to buy from the Portobello chain's shops, becoming less and less sensitive to the marketing activities of competitors

• Brand value: the loyal customer, thanks to the so-called 'halo effect', will extend his positive impression of the brand, which will increase in value

NEW OPENINGS

In the first half of August, in line with the timetable defined in the retail chain's development plan, Portobello opened two maxi-stores in Sicily and Emilia Romagna, respectively, inside the 'Etnapolis' shopping centre in Belpasso (CT) and 'ESP' in Ravenna:

- C.C. Etnapolis Belpasso (CT). The shopping centre has more than 6,000 parking spaces, dining and relaxation areas, a hypermarket, a parapharmacy, a multiplex cinema, areas dedicated to children, and many other services. The shop inside the 'Etnapolis' shopping centre has a floor space of 888 square metres and employs 13 specially recruited and trained people
- **C.C. ESP Ravenna**. The shopping centre has almost 4,500 parking spaces, a cycle track connected to the city, dining and relaxation areas, a hypermarket, an outdoor playground, children's areas, and many other facilities. The shop within the 'ESP' shopping centre has a floor space of 684 square metres and employs 12 specially recruited and trained people

PARTNERSHIP WITH TELETHON

In line with its Corporate Social Responsibility strategy, in the second half of July, the Company finalised a partnership agreement with Telethon, falling into the category of 'Major Donors'. Thanks to this agreement, during certain periods of the current year, a dedicated greeting card will be available in all Portobello shops, which customers will be able to choose at the till against a 1-euro donation. All proceeds from the collection will be donated to the Telethon Foundation to fund the 'Diseases without diagnosis' programme, which aims to find a diagnosis for children with unidentified rare genetic diseases. The partnership with Telethon represents the second stage of a value-based path shared with the Foundation and already launched last April at the Milan Relay Marathon 2022, with the participation of the Company in the solidarity relay race and the involvement of employees in an internal fundraising event.

NEW INDEPENDENT DIRECTOR

On the 14th of July 2022, the Board of Directors of Portobello S.p.A. acknowledged the resignation, effective immediately, of Mr Emanuele Ferrari, non-executive and Independent Director, elected by the Shareholders' Meeting on the 19th of April 2021, due to new professional commitments. The Company's Board of Directors also co-opted Mr Ciro Esposito as a new Independent Director.

MANAGEMENT AND COORDINATION ACTIVITIES

Pursuant to Section 5 of Article 2497-bis of the Civil Code, it is hereby certified that the Company is not subject to management and coordination by others. The subsidiary PB Retail Srl, on the other hand, is subject to management and coordination by the parent company Portobello SpA.

MAIN RISKS AND UNCERTAINTIES TO WHICH THE COMPANY IS EXPOSED

Pursuant to the first paragraph of Article 2428 of the Italian Civil Code, a description of the main risks and uncertainties to which the Company is exposed is provided below:

Risks associated with the sector in which the Company operates

The Company's economic, asset, and financial situation is influenced by various factors that condition the macro-economic framework in the various countries in which it operates, including the level of consumer and business confidence.

Credit risk in relation to business relations with customers

Almost all trade receivables derive from barter transactions that envisage the method of payment by offsetting. Therefore, there are no risk profiles in credit management, nor is it believed that there could be any negative impact caused by the current emergency. With reference to the residual portion of receivables not arising from barter agreements, all appropriate assessments have been carried out, and an adequate provision has been allocated to cover the related risk.

Liquidity risks

Liquidity risk relates to the availability of financial resources and access to the credit market. Liquidity risk is to be considered medium/low, given the Company's level of indebtedness in relation to business volumes and shareholders' equity.

Interest rate risks

Interest rate risk is related to the Company's exposure to interest-bearing financial instruments. The Company is exposed to a non-significant amount, and therefore there are no risks relative to interest rates on bank debt. However, the Company has taken out two medium/long-term loans with a variable rate linked to the Euribor trend, on which it has implemented hedging transactions. Details on the transaction are reported in the notes to the financial statements.

Exchange rate risks

The Company operates almost entirely in Euros. Transactions settled in currencies other than the Euro are very limited. Therefore, there are no significant exchange rate risks.

RESEARCH AND DEVELOPMENT ACTIVITIES

No research and development expenses were incurred during the interim period to the 30th of June 2022.

OWN SHARES

Pursuant to Articles 2435-bis and 2428 of the Civil Code, it should be noted that the Company did not hold any treasury shares at the end of the period.

USE OF FINANCIAL INSTRUMENTS RELEVANT TO THE ASSESSMENT OF THE FINANCIAL POSITION AND RESULTS OF OPERATIONS FOR THE PERIOD

Pursuant to and for the purposes of point 6-bis) of the third paragraph of Article 2428 of the Italian Civil Code, it is hereby certified that the Company has not undertaken any financial risk management policies, as it is considered immaterial. However, it is noted that two derivative contracts have been entered into to hedge against possible fluctuations in the variable rate applied to the loan in question, for details of which, please refer to the Explanatory Notes.

MAIN NON-FINANCIAL INDICATORS

Pursuant to the second paragraph of Article 2428 of the Italian Civil Code, we certify that due to the specific activity performed and for a better understanding of the Company's situation, performance and result of operations, the presentation of non-financial indicators is not considered relevant.

ENVIRONMENTAL INFORMATION

It is certified that the Company has not undertaken any particular environmental impact policies because they are not necessary in relation to its business.

INFORMATION ON PERSONNEL MANAGEMENT

No significant information was reported on personnel management.

SHARES/SHARES OF THE PARENT COMPANY

It is hereby certified that the Company is not subject to control by any company or group of companies.

BRANCH OFFICES

In compliance with the provisions of Article 2428 of the Italian Civil Code, the Company's secondary place of business is shown below:

Milan, Corso Venezia, 45

RELATIONS WITH SUBSIDIARIES, ASSOCIATES, PARENT COMPANIES AND COMPANIES CONTROLLED BY THE PARENT COMPANIES

With reference to this point, please refer to the relevant section of the Notes to the Financial Statements.

NOTES TO THE CONSOLIDATED HALF-YEARLY FINANCIAL STATEMENTS AS OF THE 30TH OF JUNE 2022

NOTES TO THE ACCOUNTS, INITIAL PART

INTRODUCTION

Dear Shareholders, these consolidated interim financial statements of Portobello SpA and its subsidiaries have been prepared in accordance with the provisions of the Italian Civil Code, supplemented and interpreted by the accounting principles adopted by the Organismo Italiano di Contabilità (O.I.C.).

The consolidated interim financial statements comply with the provisions of Articles 2423 et seq. of the Italian Civil Code and the national accounting standards as published by the Italian Accounting Organisation; they clearly and fairly represent the Company's financial position and results of operations for the interim period.

The contents of the consolidated balance sheet and the consolidated income statement are as set forth in Articles 2424 and 2425 of the Civil Code.

The notes to the financial statements, drawn up in accordance with Article 2427 of the Civil Code, also contain all the information needed to provide a correct interpretation of the financial statements.

Portobello S.p.A. is subject to the obligation to prepare Consolidated Financial Statements pursuant to Art. 25 et seq. of Legislative Decree 127/91. This is the first consolidated interim financial statement produced by the Company, and therefore, there is no comparison with the data of the previous period in relation to the economic data; instead, a comparison with the balance sheet as of 31/12/2021 is proposed.

TRAINING CRITERIA

The consolidated interim financial statements were prepared in accordance with the provisions of Article 29 of Legislative Decree No. 127/91, as shown in these notes, prepared pursuant to Article 38 of the same decree. Where necessary, the accounting principles laid down by the National Council of Chartered Accountants and Accounting Experts have been applied, and where these are lacking, the accounting principles recommended by the IASB and referred to by Consob.

The Consolidated Interim Financial Statements consist of the Consolidated Balance Sheet (prepared in accordance with the format provided for by Articles 2424 and 2424 bis of the Italian Civil Code), the Consolidated Income Statement (prepared in accordance with the format provided for by Articles 2425 and 2425 bis of the Italian Civil Code), these Notes to the Consolidated Financial Statements and are accompanied by the Group's Report on Operations.

The purpose of the Notes to the Consolidated Financial Statements is to illustrate, analyse and, in certain cases, supplement the data in the consolidated financial statements and to provide the information required by Article 2427 of the Italian Civil Code, Article 38 of Legislative Decree 127/1991 and those required by other provisions of the same decree.

The Consolidated Balance Sheet, Consolidated Income Statement, and these Notes to the Consolidated Financial Statements show values expressed in Euro units pursuant to Article 16, paragraph 8, letter a) of Legislative Decree No. 213 of 24 June 1998.

SCOPE AND METHODS OF CONSOLIDATION

The consolidated interim financial statements are derived from the interim financial statements of Portobello SpA (Parent Company) and of the Companies in which the Parent Company directly or indirectly holds a controlling interest or exercises control. The financial statements of the Companies included in the consolidation area are taken on a line-by-line basis. A list of these companies is provided below.

Subsidiaries whose activities are heterogeneous with those of the remaining group companies are excluded and valued using the equity method, pursuant to Art. 28, first paragraph of Legislative Decree 127/91; there are no exclusions for heterogeneity in our case.

Excluded from consolidation are those companies over which, for legal or factual reasons, control cannot be exercised. If they exist, a list of them would be provided as an appendix to the notes to the financial statements.

Companies over which joint control is exercised pursuant to Article 37 of Legislative Decree 127/91 are included in the consolidation in proportion to the shareholding held. There are no cases of companies consolidated using the proportional method.

There are no subsidiaries excluded from consolidation pursuant to Legislative Decree 127/91.

Companies in which the interest held is below the 20% threshold and which constitute fixed assets are valued using the cost method.

The financial statements used to prepare the consolidated financial statements are the interim financial statements as of 30.06.2022 of the Parent Company and Subsidiaries.

SCOPE OF CONSOLIDATION

The interim consolidated financial statements as of the 30th of June 2022 include, on a line-by-line basis, the financial statements as of the same date of Portobello SpA and of the companies in which the Group holds the majority of voting rights, with the sole exclusion of PB Online Srl, 100% owned and incorporated on the 26th of May 2022. The Company was not yet operative as of 30/06/2022 and was therefore deemed to be excluded from the consolidation period as it was not material.

LIST OF COMPANIES INCLUDED IN CONSOLIDATION USING THE LINE-BY-LINE METHOD

The line-by-line consolidation concerned the shareholdings of the companies listed below in which Portobello SpA directly holds control:

| Name | Headquarters | Share Capital | Properties |
|---------------|--|---------------|------------|
| PB Retail Srl | Piazzale della Stazione Snc - Pomezia (RM) | 100,000 euro | 51% |

CONSOLIDATION CRITERIA

The financial statements are consolidated by applying the line-by-line method. The accounting principles and criteria used for consolidation are as follows:

- The book value of investments held by the parent company in subsidiaries consolidated on a lineby-line basis is eliminated against the corresponding fraction of the equity of the investee companies.
- The assets, liabilities, costs, and revenues of subsidiaries are taken in their full amount, regardless of the percentage share of the investments.
- The positive difference between the book value of the eliminated participations and the book value of the corresponding fractions of eliminated shareholders' equity of the investee companies arising on consolidation is treated as follows:
- The difference arises at the date of the first inclusion of the investee company in the consolidated financial statements. The excess of the cost of the equity investment over the book value of the corresponding portion of shareholders' equity eliminated, insofar as it cannot be attributed to a specific asset or liability item, is recognised autonomously under assets among intangible assets in an article called 'Goodwill' unless it must be recognised wholly or partially in the income statement

under item B14. The amount entered as an asset is amortised over the period specified in the first paragraph, no. 6, of Article 2426.

- The difference arising after the date of first inclusion of the investee company in the consolidated financial statements as a result of profits realised or losses incurred by the investee company in financial years subsequent to the year of the first consolidation is credited or debited to the Consolidated Shareholders' Equity item 'Consolidation Reserve' or to a specific 'Consolidation reserve for future risks and charges', in compliance with the criterion of Article 33, paragraph 3, of Legislative Decree 127/91. The provision is utilised in subsequent years to reflect the assumptions made when it was estimated at the time of purchase.
- Transactions between companies are included in the scope of consolidation, and thus the receivables, payables, costs, and revenues arising from such transactions are eliminated in the consolidation process.
- Profits not yet realised with third parties arising from transactions between companies included in the scope of consolidation are eliminated, considering the relevant tax effect.
- Items that may be present in the statutory financial statements of companies included in the scope of consolidation and accounted for exclusively in the application of tax regulations are eliminated, taking into account the related tax effect.
- The financial statements of the companies included in the consolidation area, where necessary, are aligned with the accounting principles applied by the parent company.
- The portions of shareholders' equity and profit for the year attributable to minority shareholders of the subsidiaries included in the scope of consolidation are shown in particular items in the consolidated balance sheet and income statement called 'Minority interest in capital and reserves' and 'Minority interest in profit (loss)'.
- Included in the consolidated financial statements, if any, is the deferred tax charge arising from the elimination of value adjustments made solely for tax purposes and consolidation eliminations. This charge is charged to the income statement under the item 'deferred income taxes for the year with a balancing entry in a special liability fund called 'Provision for Taxes'.
- I) If deferred tax assets arise from the aforementioned pre-consolidation and consolidation transactions, they are recognised by debiting the "Deferred Tax Fund" recorded under liabilities up to their full amount; any credit balance is only shown on the assets side of the balance sheet under "Deferred Tax Assets" if it is reasonably certain that, in the years in which the temporary difference that generated the deferred tax assets will be reversed, there will be sufficient taxable income to absorb them.

DRAFTING PRINCIPLES

COMMENT

The items in the consolidated interim financial statements were measured in accordance with the principle of prudence, materiality and on a going concern basis. Pursuant to Article 2423-bis c.1 point 1-bis of the Italian Civil Code, items are recognised and presented, considering the substance of the transaction or contract. In the preparation of the consolidated interim financial statements, income and expenses have been recognised on an accrual basis regardless of when they occur, and only profits realised at the end of the financial year have been shown. Risks and losses pertaining to the financial year have also been considered, even if they became known after the end of the financial year.

STRUCTURE AND CONTENT OF THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

The consolidated balance sheet and profit and loss account, cash flow statement, and accounting information contained in these notes are consistent with the accounting records from which they have been directly derived.

In the presentation of the consolidated balance sheet and profit and loss account, items preceded by Arabic numerals have not been grouped together, as optionally required by Article 2423 of the Civil Code.

Pursuant to Article 2424 of the Civil Code, it is confirmed that there are no assets or liabilities that fall under more than one heading in the interim statement.

EXCEPTIONAL CASES PURSUANT TO ARTICLE 2423(5) OF THE CIVIL CODE

There were no exceptional cases that made it necessary to resort to derogations under Article 2423(4) and (5) of the Civil Code.

CHANGES IN ACCOUNTING PRINCIPLES

There were no exceptional cases that made it necessary to resort to derogations under Article 2423-bis c.2 of the Civil Code.

COMPARABILITY AND ADAPTATION ISSUES

This is the first consolidated interim financial statement prepared by the Company, so there was no need to adjust any items from the previous year.

EVALUATION CRITERIA APPLIED

COMMENT

The criteria applied in the valuation of the items of the consolidated interim financial statements and in the value, adjustments are in compliance with the provisions of the Italian Civil Code and the indications contained in the accounting principles issued by the Italian Accounting Body. The criteria used in the preparation of the interim consolidated financial statements as of 30/06/2022 are those used in the interim financial statements of the parent company.

Pursuant to Article 2427 c. 1 no. 1 of the Italian Civil Code, we illustrate the most significant valuation criteria adopted in compliance with the provisions of Article 2426 of the Italian Civil Code, with reference to those balance sheet items for which the legislator allows different valuation and adjustment criteria or for which no specific criteria are envisaged.

At the balance sheet date, the Company held payables in foreign currency arising from an invoice for services of a company resident in Great Britain.

INTANGIBLE FIXED ASSETS

Intangible assets, which meet the requirements of the accounting principles, are recorded in the consolidated balance sheet assets at purchase and/or production cost and are amortised on a straight-line basis according to their future usefulness.

The value of fixed assets is shown net of accumulated depreciation and write-downs.

Depreciation was performed in accordance with the following pre-established schedule, which is deemed to ensure a correct allocation of the cost incurred over the useful life of the fixed assets in question:

| Intangible fixed assets | Period |
|------------------------------|--|
| Corporate expenses | 5 years on a straight-line basis |
| AIM Listing expenses | 3 years on a straight-line basis |
| Proprietary software | 5 years on a straight-line basis |
| Intellectual property rights | 2 years on a straight-line basis |
| Brands | 10 years in equal instalments - lease term |

| Concessions and licences | 5 years on a straight-line basis |
|--------------------------------------|----------------------------------|
| Other Intangible Assets | 5 years on a straight-line basis |
| Expenditure on third-party assets | Lease term |

Any disposals of intangible assets during the year resulted in the elimination of their residual value.

The criterion of amortisation of intangible assets has been applied systematically and in every financial year in relation to the residual possibility of economic use of each individual asset or expense.

Pursuant to and for the purposes of Article 10 of Law No. 72 of the 19th of March 1983, and as also referred to by subsequent Monetary Revaluation Laws, it is noted that no monetary revaluation has ever been carried out for intangible assets still existing in the balance sheet.

It should be noted that it was not necessary to make write-downs on these fixed assets pursuant to Article 2426, Paragraph 1, No. 3 of the Civil Code because, as required by Accounting Principle OIC 9, no indicators of potential impairment of intangible assets were found.

START-UP AND EXPANSION COSTS

Start-up and expansion costs have been recognised as assets in the consolidated balance sheet with the approval of the Board of Statutory Auditors since they have a multi-year useful life; these costs have been amortised over a period not exceeding five years.

INTANGIBLE ASSETS

Intangible assets are recognised at their purchase cost, including ancillary costs, and are amortised within the legal or contractual limit set for them.

FIXED ASSETS UNDER CONSTRUCTION AND ADVANCES

Intangible assets under construction, recorded under item B.I.6, are initially recognised at the date when the first costs are incurred for the construction or acquisition of the asset and include internal and external costs incurred for its construction. These costs remain recognised as assets under construction until the project is completed and are not depreciated until that time.

MATERIAL GOODS

The book value of assets, grouped in homogeneous classes by nature and year of acquisition, is allocated to the financial years in which they are expected to be used. This procedure is implemented through the systematic allocation to the income statement of depreciation rates corresponding to pre-established plans, defined at the time the asset is available and ready for use, with reference to the presumed residual possibility of use of the assets themselves. These plans, subject to annual verification, are formed with reference to the gross value of the assets and assume zero realisable value at the end of the process.

The depreciation of tangible fixed assets, the use of which is limited in time, was carried out in accordance with the following schedule:

| Items of tangible fixed assets | Rates % |
|--------------------------------|-----------------------|
| Land and buildings | 3% |
| Air-conditioning system | 15% |
| Other plant and machinery | 30% |
| Specific warehouse equipment | 7.5% |
| Specific equipment | 10% |
| Furniture and furnishings | 12% |
| Electronic office machines | 20% |
| Other tangible assets | 100% - lease duration |

Any disposals of assets (sales, scrapping, etc.) during the year resulted in the elimination of their residual value. Any difference between book value and disposal value was recognised in the income statement.

For fixed assets acquired during the year, the above rates have been reduced to half, as the depreciation rate thus obtained is not significantly different from the rate calculated from the time the asset is available and ready for use.

The depreciation criteria for tangible fixed assets did not change from those applied in the previous year.

Pursuant to and for the purposes of Article 10 of Law No. 72 of 19 March 1983, as also referred to by subsequent Monetary Revaluation Laws, it is hereby clarified that no monetary revaluation has ever been carried out for the tangible assets still existing in the assets.

It is noted that it was not necessary to make write-downs pursuant to Article 2426, Paragraph 1, No. 3 of the Civil Code because, as required by Accounting Principle OIC 9, no indicators of potential impairment of tangible fixed assets were found.

FINANCIAL FIXED ASSETS

All participations recorded in the financial statements have been valued using the cost method, where the cost means the charge incurred for the purchase, regardless of the method of payment, including any ancillary charges (commissions and bank charges, stamp duty, bank brokerage, etc.).

RESIDENCIES

Inventories of goods are stated at the lower purchase cost and realisable value based on market trends. The value of the same is shown net of the relevant provision for depreciation.

The purchase cost includes any directly attributable ancillary charges.

FINISHED PRODUCTS

The cost of inventories of finished goods and goods of a fungible nature was calculated using the last cost method.

The value thus determined was appropriately compared, as explicitly required by Article 2426 No. 9 of the Civil Code, with the realisable value inferable from market trends. The comparison between purchase/production cost calculated using the point cost method and realisable value inferable from the market did not reveal, for any of the goods in stock, the prerequisites for valuation based on the lower market value.

Advances to suppliers for the purchase of goods included in inventories recorded under item C.1.5 are initially recognised when the obligation to pay these amounts arises or, in the absence of such an obligation, when they are paid.

RECEIVABLES RECORDED AS CURRENT ASSETS

Receivables recorded in current assets were recognised in the financial statements according to the amortised cost criterion, as defined in Article 2426, Section 2 of the Civil Code, considering the time factor and estimated realisable value, in accordance with Article 2426, Section 1, No. 8 of the Civil Code.

For receivables for which the application of the amortised cost method and/or discounting has been determined to be irrelevant, for the purpose of giving a true and fair view of the Company's balance sheet and economic situation, recognition has been maintained at their presumed realisable value. This is the case, for example, in the presence of receivables with a maturity of less than twelve months, or with reference to the amortised cost criterion. In the case where transaction costs, commissions and any other difference between initial value and value at maturity are of little significance or, again, in the case of discounting, in the presence of an interest rate inferable from the contractual conditions that are not significantly different from the market interest rate.

LIQUID ASSETS

Liquid assets are valued at nominal value.

ACCRUED INCOME AND PREPAID EXPENSES

Accruals have been calculated on an accrual basis by allocating revenues and/or costs common to several years.

In the recording, as well as in the review of prepayments of multi-year duration, the existence or permanence of the time condition was verified.

NET WORTH

The items are shown in the balance sheet at their book value in accordance with the guidelines in accounting standard OIC 28.

SEVERANCE PAY

The TFR was calculated in accordance with the provisions of Article 2120 of the Civil Code, considering the legislative provisions and the specificities of the contracts and professional categories, and includes the annual amounts accrued and the revaluations made based on ISTAT coefficients.

The amount of the provision is recognised net of advances paid, and portions utilised for terminations of employment during the year and represent the certain liability to employees at the balance sheet date.

DEBTS

Payables have been recognised in the financial statements according to the amortised cost method, as defined in Article 2426 c.2 of the Italian Civil Code, considering the time factor, in compliance with Article 2426, paragraph 1, no. 8 of the Italian Civil Code. For payables for which the application of the amortised cost method and/or discounting has been verified to be irrelevant, for the purpose of giving a true and fair view of the Company's balance sheet and economic situation, the nominal value has been maintained. This is the case, for example, in the presence of debts with a maturity of less than twelve months or, with reference to the amortised cost criterion, in the case where transaction costs, commissions and any other difference between initial value and value at maturity are of little significance or, again, in the case of discounting, in the presence of an interest rate inferable from the contractual conditions that are not significantly different from the market interest rate.

ACCRUALS AND DEFERRED INCOME

Accruals have been calculated on an accrual basis by allocating costs and/or revenues common to several years.

In the recording, as well as in the review of deferred income over several years, the existence or permanence of the time condition was verified.

OTHER INFORMATION

REVERSE REPURCHASE AGREEMENTS

Pursuant to Article 2427 No. 6-ter, the Company certifies that during the year, it did not enter into any transactions subject to the obligation of retrocession.

NOTES TO THE ACCOUNTS, ASSETS

The movements of the individual items in the consolidated financial statements are analysed in detail below.

FIXED ASSETS

INTANGIBLE FIXED ASSETS

These are stated at historical acquisition cost and show net depreciation charged directly to the individual items over the years. Depreciation is systematic due to the multi-year usefulness of the related costs. Start-up and expansion costs with long-term utility have been capitalised with the approval of the Board of Statutory Auditors and are amortised over a period of five financial years. Goodwill, if acquired for consideration, is capitalised within the limits of the cost incurred for it and is amortised over a period of five years.

Pursuant to Article 11 of Law No. 342/2000 and Article 3 of Law No. 448/2001 and subsequent amendments and additions, it is noted that there are no intangible assets on which the revaluation referred to in the same laws has been carried out, nor have any reductions in the value of any kind been made.

MOVEMENTS OF INTANGIBLE FIXED ASSETS

Introduction

After the amortisation of the interim period, amounting to euro 1,035,899, intangible fixed assets amounted to euro 6,183,661.

The table shows the changes in these fixed assets.

| | Start-up and expansion costs | Industrial Patent and Intellectual Property Rights | Concessions, licences, trademarks, and similar rights | Start-up | Intangible assets under construction and advances | Other intangible fixed assets | Total intangible fixed assets |
|---|------------------------------------|---|---|----------|--|----------------------------------|----------------------------------|
| Value at the beginning of the year | | | | | | | |
| Cost | 4,302 | 1,620,535 | 42,256 | 1 | 545,439 | 3,134,271 | 5,346,804 |
| Book value | 4,302 | 1,620,535 | 42,256 | 1 | 545,439 | 3,134,271 | 5,346,804 |
| Changes during the year | | | | | | | |
| Increases due to acquisitions | - | 217,446 | 28,133 | 35,169 | 309,259 | 1,097,292 | 1,687,299 |
| Changes in category | - | 77,250 | - | - | (525,439) | 448,189 | - |
| Other variations | - | - | - | - | - | 185,457 | 185,457 |
| Decreases due to disposals and divestments (of book value) | - | - | - | - | - | - | - |
| Amortisation/Deprecia tion for the year | 1,276 | 583,087 | 6,455 | - | - | 445,081 | 1,035,899 |
| Total changes | (1,276) | (288,391) | 21,678 | 35,169 | (216,180) | 1,285,857 | 836,857 |
| Value at the end of the year | | | | | | | |
| Cost | 4,302 | 1,620,535 | 42,256 | 1 | 545,439 | 3,134,271 | 5,346,804 |
| Depreciation (Sinking Fund) | (1,276) | (288,391) | 21,678 | 35,169 | (216,180) | 1,285,857 | 836,857 |
| Book value | 3,026 | 1,332,144 | 63,934 | 35,170 | 329,259 | 4,420,128 | 6,183,661 |

Lastly, it should be noted that within 'Other intangible fixed assets', the amount of euro 91,377 refers to the residual value of a transaction carried out with the related party Expandi Srl.

TANGIBLE FIXED ASSETS

MOVEMENTS OF TANGIBLE FIXED ASSETS

Introduction

Tangible assets net of accumulated depreciation amounted to \leq 2,721,729. Depreciation for the interim period amounted to \leq 261,270. The table below shows the changes in these fixed assets.

| | Land and buildings | Plant and machinery | Industrial and commercial equipment | Other tangible fixed assets | Tangible fixed assets under construction and advances | Total Tangible Fixed Assets |
|--|-----------------------|------------------------|---|--------------------------------|--|--------------------------------|
| Value at the beginning of the year | | | | | | |
| Cost | 50,000 | 1,191,343 | 305,886 | 1,086,744 | - | 2,633,973 |
| Depreciation | (3,750) | (215,024) | (64,672) | (354,736) | - | (638,182) |
| Book value | 46,250 | 976,319 | 241,214 | 732,007 | - | 1,995,790 |
| Changes during the year | | | - | - | | |
| Increases due to acquisitions | - | 820,566 | 52,921 | 127,695 | 28,035 | 1,029,217 |
| Decreases for disposals | - | - | - | 42,008 | - | 42,008 |
| Amortisation/Depreciation for the year | 744 | 157,248 | 17,543 | 85,735 | - | 261,270 |
| Total changes | (744) | 663,318 | 35,378 | (48) | 28,035 | 725,939 |
| Value at the end of the year | | | | | | |
| Cost | 50,000 | 2,011,909 | 358,807 | 1,172,431 | 28,035 | 3,621,181 |
| Depreciation | (4,494) | (372,272) | (82,215) | (440,471) | - | (899,452) |
| Book value | 45,506 | 1,639,636 | 276,592 | 731,960 | 28,035 | 2,721,729 |

Within the item "Other assets", it should be noted that the amount of euro 85,260 refers to the residual value of a transaction carried out in the year 2018 with the related party Nova Spa.

LEASING TRANSACTIONS

Introduction

Finance leases are presented in the interim financial statements according to the balance sheet method, with rentals paid being recognised in the income statement on an accrual basis. Supplementary information required by law concerning the presentation of finance leases according to the financial method is provided below.

As of the 30th of June 2022, the Company had six finance lease agreements in place, two relating to furniture at the Tuscolana and Castani outlets, one relating to specific warehouse equipment, one relating to printers in use at the headquarters and outlets, and two relating to electronic machines. In accordance with the indications of the OIC 12 document, the contracts are represented in the financial statements according to the equity method. Therefore, the value of the assets is not recorded among fixed assets, and the rentals are recognised in the income statement on an accrual basis.

| | Amount |
|---|---------|
| Total amount of leased assets at the end of the interim period | 403,533 |
| Depreciation and amortisation that would have been chargeable to the interim period | 27,445 |
| Present value of outstanding instalments at the end of the interim period | 211,073 |
| Financial expenses for the interim period based on the effective interest rate | 2,822 |

As required by Article 2427, No. 22 of the Civil Code, we provide a series of supplementary schedules useful for comparing the effects on the balance sheet and income statement resulting from the application of the so-called financial method.

| Category Good | Contract | Effective date | Duration | VA | Interests | Effective rate |
|-------------------|----------|-------------------|----------|--------|-----------|----------------|
| Furniture | 1481093 | 27/12/19 | 60 | 30,411 | 304 | 4.67% |
| Furniture | 1481092 | 27/12/19 | 60 | 13,516 | 129 | 4.44% |
| Warehouse systems | 1156177 | 14/07/20 | 60 | 58,492 | 684 | 6.82% |
| Printers | 4817503 | 01/01/21 | 60 | 49,139 | 819 | 11.66% |
| Office Machines | 150200-2 | 15/11/20 | 36 | 7,600 | 308 | 10.82% |
| Office Machines | 150200-1 | 01/12/20 | 36 | 8,972 | - | 0.00% |
| Office Machines | 5093570 | 10/11/21 | 60 | 42,945 | 578 | 11.66% |

The table below shows the figures for ongoing leases, valuing them as if they were fixed assets.

| Category Good | Contract | Depreciation rate | Cost | F. do Adm. 30/06/2022 | Adm. 2022 / | Accountant |
|-------------------|----------|-------------------|---------|--------------------------|-------------|------------|
| Furniture | 1481093 | 12.00% | 72,000 | 21,600 | 4,320 | 46,080 |
| Furniture | 1481092 | 12.00% | 32,000 | 9,600 | 1,920 | 20,480 |
| Warehouse systems | 1156177 | 7.50% | 140,000 | 15,750 | 5,250 | 119,000 |
| Printers | 4817503 | 20.00% | 72,369 | 14,474 | 7,237 | 50,658 |
| Office Machines | 150200-2 | 20.00% | 17,100 | 5,130 | 1,710 | 10,260 |
| Office Machines | 150200-1 | 20.00% | 19,000 | 1,710 | 1,900 | 15,390 |
| | 5093570 | 20.00% | 51,084 | 10,217 | 5,108 | 35,759 |

COMPARISON FINANCIAL METHOD - EQUITY METHOD

In accordance with the indications provided by the OIC 12 document, the following table provides information on the effects that would have been produced on Shareholders' Equity and the Profit and Loss Account by recognising finance leases using the financial method as opposed to the so-called equity method of charging the rentals paid to the Profit and Loss Account.

| Accrual fees | 37.431 |
|-------------------------------------|--------------------|
| Amortisation/Depreciation | (27,445) |
| Interest | (2,822) |
| | |
| Increased pre-tax profit | 7,164 |
| Increased pre-tax profit Higher tax | 7,164 2,065 |

| Increased Fixed Assets | 403.553 |
|------------------------------------|-----------|
| Increased accumulated depreciation | (105,926) |
| Increased Activities | 297,627 |
| Increased debts | 211,073 |
| Increased operating profit | 5,099 |
| Major Liabilities | 216,172 |

FINANCIAL FIXED ASSETS

Movements in participations, other securities, and derivative financial instruments assets

The following table shows the changes in these fixed assets.

| | 9 | l de la companya de | | | A - 41 | | |
|------------------------------------|-----------------------------|---|-----------------------------------|-------------------------|--------------------------|-----------------|--|
| | Holdings in subsidiaries | Holdings in associated companies | Holdings in other companies | Total Participations | Long-term receivables | Other titles | Active financial derivative instruments |
| Value at the beginning of the year | | | | | | | |
| Book value | - | 100,000 | 922,670 | 1,022,670 | - | 43,200 | - |
| Changes during the year | | | | | | | |
| Increases due to acquisitions | 10,000 | - | - | 10,000 | 300,000 | 28,800 | - |
| Decreases for alienations | - | - | 5,000 | 5,000 | | - | - |
| Write-downs made during the year | - | - | 100,000 | 100,000 | | - | - |
| Other changes | - | - | - | - | | - | 380,342 |
| Total changes | 10,000 | - | (105,000) | (95,000) | | 28,800 | - |
| Value at the end of the year | | | | | | | |
| Cost | 10,000 | 100,000 | 922,670 | 1,032,670 | 300,000 | 72,000 | 380,342 |
| Decreases | - | - | (5,000) | (5,000) | - | - | - |
| Write-downs | - | - | (100,000) | (100,000) | - | - | - |
| Book value | 10,000 | 100,000 | 817,670 | 927,670 | 300,000 | 72,000 | 380,342 |

On the 26^{th} of May 2022, PB Online Srl. was established, owned 100% by Portobello S.p.A.

CHANGES AND MATURITY OF LONG-TERM RECEIVABLES

| | Year-end value | Portion due after one year |
|---|----------------|----------------------------|
| Long-term receivables from subsidiaries | 300,000 | 300,000 |
| Total long-term receivables | 300,000 | 300,000 |

This item includes receivables from the subsidiary PB online S.r.l.

DETAILS ON LONG-TERM INVESTMENTS IN AFFILIATED COMPANIES

Details of the associated companies are given below.

| Name | City, if in Italy or a foreign country | Tax code (for Italian companies) | Capital in euro | Profit (Loss) for the last financial year in euro | Net assets in euro | Share held in euro | Share held in % | Book value or corresponding credit |
|----------------------------|--|--|--------------------|---|-----------------------|-----------------------|--------------------|--|
| WEB MAGAZINE MAKERS SRL | MILAN | 10883660960 | 10,000 | (554,614) | (487,619) | 2,450 | 24.50% | 100,000 |
| Total | | | | | | | | 100,000 |

DETAILS ON LONG-TERM EQUITY INVESTMENTS IN OTHER COMPANIES

Details of the other investee companies are given below.

| Name | City, if in Italy or a Foreign State | Capital in euro | Share held in euro | Share held in % | Book value |
|---------------|---|--------------------|--------------------|-----------------|------------|
| SAE GROUP SPA | LIVORNO | 2,750,000 | 507,614 | 18.46% | 507,614 |
| AXANTI SRL | MILAN | 100,000 | 10,000 | 10.00% | 10,000 |
| CLUBDEAL SPA | MILAN | 249,991 | 400,056 | 3.42% | 300,056 |
| Total | | | | | 817,670 |

The table provides a breakdown of equity investments in other companies.

LONG-TERM RECEIVABLES RELATED TO REPURCHASE AGREEMENTS

It is certified that there are no long-term receivables relating to transactions with the obligation to retrocession forward.

CURRENT ASSETS

Inventories

The following table provides information on changes in inventories.

| | Value at the beginning of the year | Changes during the financial year | Value at the end of the year |
|-----------------------------|------------------------------------|-----------------------------------|------------------------------|
| Finished products and goods | 43,919,572 | 8,298,825 | 52,218,397 |
| Total inventories | 43,919,572 | 8,298,825 | 52,218,397 |

The value shown in the table includes the value of inventories net of the related provision for a write-down. In particular, a provision of euro 400,000 was set aside during the interim period, bringing the total value of the provision to euro 1,500,000. Finished goods and merchandise inventories pertaining to Portobello Spa amounted to euro 52,091,524 net of the relative provision; the remaining amount of euro 126,873 pertains to the subsidiary PB Retail S.r.l.

RECEIVABLES RECORDED AS CURRENT ASSETS

Changes and maturity of receivables in current assets

The following table provides information on changes in receivables recognised as current assets as well as, where significant, information on their maturity dates.

| | Value at the beginning of the year | Changes during the financial year | Value at the end of the year | Portion due within the financial year | Portion due after one year |
|--|--|---|------------------------------|--|-------------------------------|
| Trade receivables recorded as current assets | 4,309,756 | 6,657,093 | 10,966,849 | 10,966,849 | - |
| Receivables from associated companies | - | 365,996 | 365,996 | 365,996 | - |
| Tax receivables recorded as current assets | 2,598,529 | (722,461) | 1,876,068 | 1,876,068 | - |
| Deferred tax assets recognised as current assets | 12,295 | - | 12,295 | | |
| Receivables from others recorded as current assets | 1,351,807 | (435,675) | 916,132 | 473,162 | 442,970 |
| Total receivables recorded as current assets | 8,272,387 | 5,864,953 | 14,137,340 | 13,694,370 | 442,970 |

BREAKDOWN OF RECEIVABLES RECORDED IN CURRENT ASSETS BY GEOGRAPHICAL AREA

The following table provides a breakdown of receivables by geographical area.

| Geographical area | ITALY | EU | Total |
|--|-----------|-----------|------------|
| Trade receivables recorded as current assets | 9,169,005 | 1,797,844 | 10,966,849 |
| Receivables from associated companies | 365,996 | - | 365,996 |
| Tax receivables recorded as current assets | 1,876,068 | - | 1,876,068 |
| Deferred tax assets recognised as current assets | 12,295 | - | 12,295 |

| Receivables from others recorded as current assets | 916,132 | - | 916,132 |
|--|------------|-----------|------------|
| Total receivables recorded as current assets | 12,339,496 | 1,797,844 | 14,137,340 |

CURRENT ASSET RECEIVABLES RELATED TO REVERSE REPURCHASE AGREEMENTS

It is certified that there are no receivables in respect of transactions with the obligation to retrocession forward.

LIQUID ASSETS

The following table provides information on changes in cash and cash equivalents.

| | Value at the beginning of the year | Changes during the financial year | Value at the end of the year |
|----------------------------------|---------------------------------------|--------------------------------------|------------------------------|
| Bank and postal deposits | 2,382,957 | (1,573,944) | 809,013 |
| Cash and other valuables on hand | 88,218 | (3,460) | 84,758 |
| Total cash and cash equivalents | 2,471,175 | (1,577,404) | 893,771 |

ACCRUED INCOME AND PREPAID EXPENSES

The following table provides information on changes in accrued income and prepaid expenses.

| | Value at the beginning of the year | Changes during the year | Value at the end of the year |
|---|------------------------------------|-------------------------|------------------------------|
| Prepaid expenses | 23,490,227 | 3,963,695 | 27,453,922 |
| Total accrued income and prepaid expenses | 23,490,227 | 3,963,695 | 27,453,922 |

It should be noted that among the amounts of prepaid expenses, the most significant item is advertising prepaid expenses in the amount of EUR 25,616,309.

CAPITALISED FINANCIAL CHARGES

All interest and other financial charges were fully expensed during the year. For the purposes of Article 2427, Section 1, No. 8 of the Civil Code, it is therefore certified that there are no capitalised financial expenses.

Notes to the accounts, liabilities, and shareholders' equity

The movements of the individual balance sheet items are analysed in detail below.

NET WORTH

Changes in equity items

With reference to the year under review, the following tables show the changes in the individual items of shareholders' equity, as well as details of the other reserves, if any.

| | | Othe | r Changes | | |
|--|--|-----------|-----------|---------------------|---------------------------------|
| | Value at the beginning of the year | Increases | Decreases | Result for the year | Value at the end of the year |
| Share capital | 619,490 | 54,960 | - | | 674,450 |
| Share premium reserve | 12,767,452 | - | - | | 12,767,452 |
| Legal reserve | 106,738 | 17,160 | - | | 123,898 |
| Other reserves | | | | | |
| Extraordinary reserve | 12,707,154 | 9,059,651 | 72,960 | | 21,693,845 |

| Other Consolidation Entries | (2,361,713) | (2,389,122) |
| Total consolidation entries | (2,455,009) | (2,390,973) |
| Leased Assets - IAS 17 | - | - |
| Total pre-consolidation adjustments | - | - |
| | | |
| Consolidated Shareholders' Equity and Net Profit | 38,195,430 | 2,747,353 |
| of which | | |
| Shareholders' Equity and Profit/(Loss) attributable to minority interests | (1,157,239) | (1,170,670) |
| Shareholders' equity and net profit attributable to the Group | 39,352,670 | 3,918,023 |

CHANGES IN THE CASH FLOW HEDGE RESERVE

The table below shows the changes in the reserve for hedging transactions.

| | Reserve for expected cash flow hedging transactions |
|--------------------------------------|---|
| Value at the beginning of the year | (32,637) |
| Changes during the year | |
| Increase due to change in fair value | 380,342 |
| Decrease due to change in fair value | (113,236) |
| Value at the end of the year | 234,469 |

SEVERANCE PAY

The following table provides information on changes in the provision for employee severance indemnities.

| | Severance pay |
|------------------------------------|---------------|
| Value at the beginning of the year | 389,210 |
| Changes during the year | |
| Provision in the financial year | 229,681 |
| Use in the financial year | 83,266 |
| Total changes | 146,415 |
| Value at the end of the year | 535,625 |

DEBTS

Changes and maturity of debts

The following table sets out information on changes in payables and any information on their maturity.

| | Value at the beginning of the year | Changes during the financial year | Value at the end of the year | Portion due within the financial year | Portion due after one year |
|--|--|-----------------------------------|---------------------------------|---------------------------------------|----------------------------|
| Payables to shareholders | 680,000 | - | 680,000 | - | 680,000 |
| Due to banks | 18,540,278 | 8,932,448 | 27,472,726 | 7,299,916 | 20,172,810 |
| Payables to other lenders | 1,234,117 | (233,123) | 1,000,994 | 612,308 | 388,686 |
| Payables to suppliers | 11,887,771 | 11,598,876 | 23,486,647 | 23,486,647 | - |
| Payables to associated companies | - | 8,600 | 8,600 | 8,600 | - |
| Tax debts | 7,019,181 | 528,493 | 7,547,674 | 7,547,674 | - |
| Payables to social security institutions | 318,451 | 64,718 | 383,169 | 383,169 | - |
| Other debts | 1,155,068 | 321,275 | 1,476,343 | 1,467,736 | 8,607 |
| Total debts | 40,834,866 | 21,221,287 | 62,056,153 | 40,806,050 | 21,250,103 |

BREAKDOWN OF DEBTS BY GEOGRAPHICAL AREA

The following table provides a breakdown of payables by geographical area.

| Geographical area | ITALY | EU | EXTRA-EU | Total |
|--|------------|-----------|----------|------------|
| Payables to shareholders | 680,000 | - | - | 680,000 |
| Due to banks | 27,472,726 | - | - | 27,472,726 |
| Payables to other lenders | 1,000,994 | - | - | 1,000,994 |
| Payables to suppliers | 21,199,503 | 2,221,020 | 66,124 | 23,486,647 |
| Payables to associated companies | 8,600 | - | - | 8,600 |
| Tax debts | 7,547,674 | - | - | 7,547,674 |
| Payables to social security institutions | 383,169 | - | - | 383,169 |
| Other debts | 1,476,343 | - | - | 1,476,343 |
| Total debts | 62,056,153 | - | - | 62,056,153 |

DEBTS SECURED BY COLLATERAL ON CORPORATE ASSETS

Pursuant to Article 2427, Section 1, No. 6 of the Civil Code, it is certified that there are no corporate debts secured by collateral.

PAYABLES RELATING TO REPURCHASE AGREEMENTS

It is hereby certified that there are no debts relating to forwarding transactions.

FINANCING BY SHAREHOLDERS OF THE COMPANY

The Company received a loan from third-party shareholders in the amount of Euro 680,000.

ACCRUALS AND DEFERRED INCOME

The following table provides information on changes in accrued expenses and deferred income.

| | Value at the beginning of the year | Changes during the year | Value at the end of the year |
|--|---------------------------------------|-------------------------|------------------------------|
| Accrued expenses | 91,594 | (58,883) | 32,711 |
| Deferred income | 10,177,559 | (5,854,519) | 4,323,040 |
| Total accrued expenses and deferred income | 10,269,153 | (5,913,402) | 4,355,751 |

It should be noted that among the amounts of deferrals, the most significant item refers to deferred advertising income in the amount of EUR 4,174,937.

Notes to the consolidated income statement

The consolidated income statement shows the economic result for the interim period.

It provides a representation of management operations by summarising the positive and negative income components that have contributed to determining the economic result. The positive and negative components of income, recorded in the financial statements in accordance with Article 2425-bis of the Civil Code, are distinguished according to whether they belong to the various operations: characteristic, accessory and financial.

Core business identifies the components of income generated by transactions that occur on an ongoing basis and in the sector relevant to the performance of operations, which identify and qualify the special and distinctive part of the economic activity carried out by the Company for which it is intended. Financial activities consist of transactions that generate income and expenses of a financial nature. On a residual basis, ancillary activities consist of transactions that generate income components that are

part of ordinary activities but do not fall within the scope of characteristic and financial activities.

VALUE OF PRODUCTION

Revenues are recorded in the financial statements on an accrual basis, net of returns, rebates, discounts, and premiums, as well as taxes directly related thereto.

Regarding the transfer of assets, the related revenues are recognised when the substantial and non-formal transfer of title has occurred, taking the transfer of risks and rewards as the benchmark for the substantial transfer.

Revenues from the rendering of services are recognised when the service is rendered, i.e., when the service has been performed; in the case of continuous services, the related revenues are recognised for the accrued portion.

BREAKDOWN OF REVENUES FROM SALES AND SERVICES BY CATEGORY OF ACTIVITY

The following table shows the breakdown of revenue from sales and services by category of activity.

| Activity category | Current year value |
|-------------------|--------------------|
| Media | 24,568,549 |
| Retail (B2C) | 9,771,174 |
| B2B | 14,480,592 |
| Total | 185,703 |

BREAKDOWN OF REVENUES FROM SALES AND SERVICES BY GEOGRAPHICAL AREA

The breakdown of sales by geographic area is not relevant and is therefore omitted.

PRODUCTION COSTS

Costs and charges are allocated on an accrual basis and according to their nature, net of returns, allowances, discounts, and premiums, in compliance with the principle of correlation with revenues, and recorded in the respective items according to the provisions of accounting standard OIC 12. In the case of purchases of goods, the related costs are recognised when the substantial and non-formal transfer of title has occurred, taking the transfer of risks and benefits as the reference parameter for the substantial transfer. In the case of the purchase of services, the related costs are recognised when the service has been received or when the service has been completed, while, in the case of continuous services, the

related costs are recognised for the portion accrued.

FINANCIAL INCOME AND EXPENSES

Breakdown of participation income

There is no income from participations as referred to in Article 2425, No. 15 of the Civil Code.

BREAKDOWN OF INTEREST AND OTHER FINANCIAL EXPENSES BY TYPE OF DEBT

The table below shows the amount recognised in the income statement for the current year.

| | Interest and other financial charges | |
|---------------|--------------------------------------|--|
| Towards banks | 263,589 | |
| More | 2,119 | |
| Total | 265,708 | |

VALUE ADJUSTMENTS TO FINANCIAL ASSETS AND LIABILITIES

During the year, the investment in Club Deal Spa was written down by euro 100,000.

CURRENT, DEFERRED AND PREPAID INCOME TAXES

The Company allocated taxes for the interim period on the basis of the application of current tax regulations. Current taxes refer to taxes pertaining to the financial year; taxes relating to previous years include direct taxes for previous years, including interest and penalties, and refer to the positive (or negative) difference between the amount due following the settlement of a dispute or an assessment and the value of the provision set aside in previous years. Finally, deferred tax liabilities and deferred tax assets relate to positive or negative income components, respectively, subject to taxation or deduction in different years from those in which they are recognised in the statutory accounts.

Taxes totalling EUR 1,559,969 were set aside in the financial statements as follows:

- 1. Euro 1,186,508 for IRES tax for the interim period
- 2. Euro 373,461 for IRAP taxes for the interim period

There were no temporary changes that led to the need to recognise deferred tax assets and liabilities.

Notes to the accounts, cash flow statement

The Company has prepared the cash flow statement, which represents the summary document that links the changes that occurred during the year in the Company's assets with the changes in the financial situation; it highlights the values relative to the financial resources that the Company needed during the year as well as the relative uses.

Regarding the method used, it should be noted that, in accordance with the provisions of OIC 10, the Company has adopted the indirect method whereby the cash flow is reconstructed by adjusting the result for the year for non-monetary components.

Notes to the accounts, other information

The other information required by the Civil Code is set out below.

EMPLOYMENT DATA

The following table shows the average number of employees, broken down by category and calculated on a daily average basis.

| | Average number |
|-----------------|----------------|
| Quadri | 12 |
| Employees | 249 |
| Workers | 34 |
| Total Employees | 295 |

REMUNERATION, ADVANCES AND CREDITS GRANTED TO DIRECTORS AND AUDITORS AND COMMITMENTS UNDERTAKEN ON THEIR BEHALF

The following table sets out the information required by Article 2427 No. 16 of the Italian Civil Code, specifying that there are no advances or receivables and no commitments have been undertaken on behalf of the administrative body as a result of guarantees of any kind given.

| | Administrators | Mayors |
|------|----------------|--------|
| Fees | 9,500 | 18,750 |

FEES TO THE STATUTORY AUDITOR OR AUDITING FIRM

The following table shows the fees due to the auditing firm, broken down by the type of services rendered.

| | Value |
|---------------------------------------|-------|
| Statutory audit of annual accounts | 8,750 |
| Other verification services performed | 7,500 |

CATEGORIES OF SHARES ISSUED BY THE COMPANY

The following table shows the number of shares in the Company, as well as any movements during the year.

| Description | Initial consistency, number | Initial stock, nominal value | Shares subscribed during the year, number | Shares subscribed during the year, nominal value | Final consistency, number | Final stock, nominal value |
|-------------|-----------------------------------|------------------------------------|---|--|---------------------------------|-------------------------------|
| Actions | 3,236,902 | 619,490 | 274,800 | 54,960 | 3,511,702 | 674,450 |
| Total | 3,236,902 | 619,490 | 274,800 | 54,960 | 3,511,702 | 674,450 |

SECURITIES ISSUED BY THE COMPANY

The Company has not issued any security or similar value falling under the provision of Article 2427 No. 18 of the Civil Code.

DETAILS ON OTHER FINANCIAL INSTRUMENTS ISSUED BY THE COMPANY

The Company has not issued any other financial instruments within the meaning of Article 2346(6) of the Civil Code.
